The Morning Mayor Show KMPH 840 AM Daily at 10 The valleys only local news and talk radio February 26, 2008 The Sabatino Report Good Morning To Tom Van Gronigen: Have you found the transportation tax measure that was developed during the visioning process and advocated by Mayor Sabatino. You were paid thousands of dollars for that body of work. Where is it? Why has it not been part of the present discussion on a transportation tax? Let's think about our past, our present, and our future Measure M may be challenged before the first paychecks are issued to the Council. With more information being revealed, the Measure could eventually be repealed. When will Paul Van Konyrnburg and Bill Bassitt open the books to the Alliance? When they are forced to!! Complaint against the Chamber of Commerce is to be filed with Fair Political Practices Commission. The Bee continues to characterize sales tax as "one half-cent";. Would it not be correct to say "one half-percent" increase? Has anyone asked who will control the money should a sales tax pass? Not another commission as outlined in Measure M!! The City of Ceres will eventually pay a "one-percent" increase in sales tax. The Morning Mayor Show With host, former Mayor Carmen Sabatino KMPH 840 AM daily at 10 209-527-8484
